

Making money online is looked more like a scam or hoax, but the reality is. It is very real and very achievable.

Before I jump into the method that I used to **make \$300 in Only A Week**. I want to show you the **proof that it works** if you do it the right way.

Here is a screenshot of the commissions I have made so far:

The screenshot refers to my Clickfunnels Affiliate Account.

Now the question arises that **how I was able to make these commissions in such a short time**.

I will **break down this process into Two Sections with Associated Steps**.

Section 1 - The Offer And Automation

Step#1 - Clickfunnels Account

You need to make a Clickfunnels account, its **free** for the first 14 days and this much time is enough to make the money to pay for its monthly fee. [You can get your free account here](#).

Step#2 - Opt-In And Thank You Page

Now this one is an important step, because you want to **capture the Email address of the person**. To engage and sell them stuff later one.

[Golden Nugget] Redirect the person to the Affiliate offer directly, I'll show you how to do it ethically.

Here is a snapshot of the Opt-In Page I use. You can check it out yourself [here](#).

Step#3 - Get Your Affiliate Links And Setup the Emails

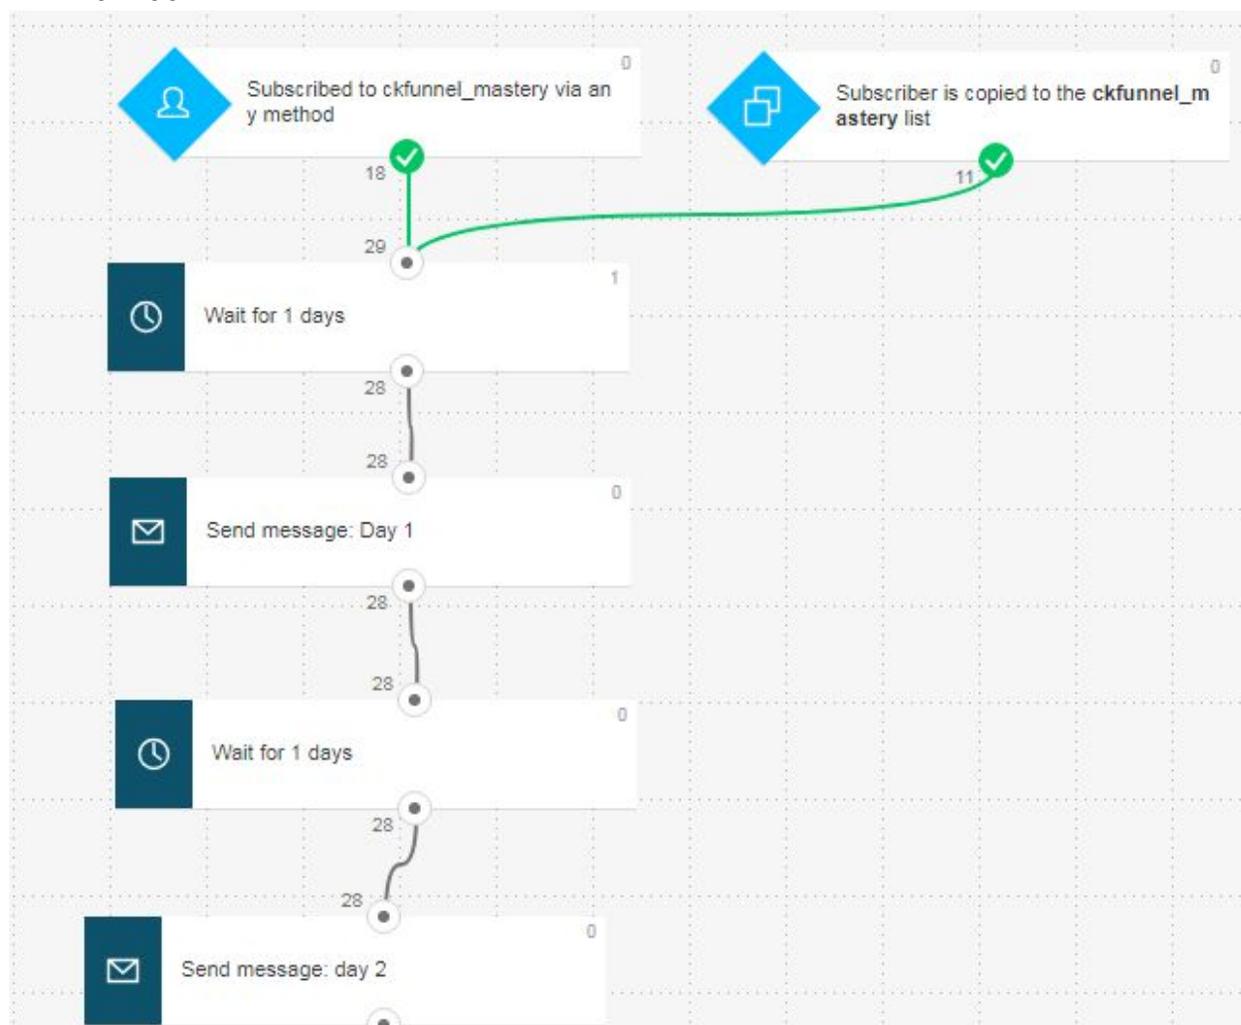

Once you are done with the Opt-In page, the next part important part is that you want to send the prospect emails over the next period of 10 to 15 days.

Here is the catch guys! **NEVER sell in first 3 emails. Provide them with value and then pitch them something in the fourth email.** Repeat this process for next emails as well.

You create **rapport and trust** with the prospect this way and they turn out to be more likely to buy from you.

NOW to create an email follow-up sequence, you can either use a 3rd Party Email Autoresponder OR You can use [Clickfunnels](#) own email follow-up processes.

Here is the email sequence I made in [GetResponse](#), to engage with the prospects and develop rapport.

It is really easy to make one, if you still do not know how to make it. Here is a training video I created on **how to setup your Email automation in GetResponse**.

Section 2 - Traffic (Leveraging Instagram)

Step#1

So the first thing you want to do it **create an Instagram account**, something related to the Niche and the the Instagram handle you choose should also be relevant. Here is a snapshot of my business account, which also shows the Opt-In page Url I mentioned above.

Step#2

Post quality and great content. Now the fun part is that you **do not really need to make every single post out of scratch.** You can just simple go and repost other people’s content in your niche while giving credits to the original creator.

NO! This is not stealing. Get this straight.

Here is snapshot of the type of content I upload.

Step#3 - (THE SECRET)

Warm up the audience through posting stories and send welcome messages to new followers with the link to the Opt-In page. The way I do it, is by simply welcoming them and proving them with the link to the book **AS A WELCOME GIFT.**

Overview:

Someone **comes onto your page**, likes your content and see this link up your bio. They either go or they do not. Now when this person follows you.

He receives a **welcome message** which builds credibility as you welcome them and give them a gift.

This person goes to the **Opt-In page and enters his email address**.

Now when he is **redirected to the affiliate offer**, he may buy or he may not.

No problem!!!

Very next day he **receives an email** in which you provide value. It happens for the next 3 days and he starts liking you more and more.

Then on the fourth day you sell him something. **He is 10X more likely to buy now**.

This process just repeats over the next 10 to 15 days and **BOOM** you make your commissions. While you **build an email list as well**. This is the method I use and I am still using it. Its scale-able and it works!
